PROFESSIONAL SUMMARY

Results-driven Software Engineer with hands-on experience in full-stack web development, REST API design, and AI-driven application architecture. Proficient in JavaScript, Python, React.js, Node.js, and PostgreSQL, with a demonstrated ability to build scalable backends and dynamic user interfaces. Experienced in integrating modern AI services, optimizing database operations with Prisma ORM, and collaborating across Agile development workflows to deliver high-impact digital solutions.

TECHNICAL SKILLS

Languages	: JavaScript, Python, SQL, HTML5, CSS3
Frameworks & Libraries	: React.js, Next.js, Node.js, Express.js, FastAPI, REST APIs
Databases & Tools	: PostgreSQL, Prisma ORM, MySQL, MongoDB, Docker, Git, GitHub, Railway, Postman, VS Code

EXPERIENCE

AgriCode Solutions Pvt. Ltd.	January 2026 – Present
<i>Python Developer Intern</i>	<i>Kalol, India</i>
- Engineered scalable RESTful backend APIs using Python and FastAPI, increasing API endpoint response speed and modularity across key service layers. - Implemented containerized development workflows utilizing Docker, Git, and GitHub, reducing onboarding configuration overhead for internal engineering teams. - Diagnosed and resolved backend functional bugs, improving overall service stability and database request efficiency across active application modules. - Collaborated in an Agile development environment to streamline code review workflows and maintain rigorous debugging standards.	

PROJECTS

AI Website Builder – Buildify	2026
<i>Tech Stack: React.js, Node.js, Express.js, PostgreSQL, Prisma ORM, REST APIs</i>	
- Architected a full-stack AI website creation platform, enhancing component modularity and reducing rendering latency across multi-page workflows. - Designed and deployed structured RESTful backend APIs for user authentication, project state management, and dynamic content generation. - Streamlined database queries and data mapping by implementing PostgreSQL paired with Prisma ORM, ensuring high data reliability and faster response cycles. - Configured and deployed cloud database pipelines using Railway, achieving continuous cloud connectivity and zero-downtime database access.	
AI Resume Analyzer	2026
<i>Tech Stack: Next.js, FastAPI, MongoDB, Gemini API</i>	
- Developed an automated resume evaluation engine, increasing match scoring accuracy between candidate profiles and job descriptions by integrating Gemini API models. - Built dynamic, high-throughput backend service endpoints using FastAPI to process unstructured resume text and generate actionable visual feedback. - Engineered an interactive front-end application with Next.js and React, enabling seamless file uploads and immediate presentation of diagnostic feedback.	

EDUCATION

Kalol Institute of Management — Master of Computer Applications (MCA)	June 2024 – June 2026
Kalol Institute of Computer Studies — Bachelor of Computer Applications (BCA)	May 2021 – June 2024

CERTIFICATIONS & ACHIEVEMENTS

- Demonstrated hands-on expertise in building production-ready REST APIs, containerization with Docker, and cloud deployments on Railway.
- Strong foundation in Agile development methodologies, Git version control, dynamic state management, and team collaboration.
